Development & DSA | Open to Internships
Jamshedpur, Jharkhand, India

Summary

I am a B.Tech student specializing in Artificial Intelligence and Machine Learning at Mirai School of Technology, with a strong interest in software development and problem-solving.

Building a strong foundation in data structures, web development, and AI fundamentals. I have also earned certifications in AI and cloud fundamentals, which reflect my commitment to learning and upskilling.

I am actively seeking internship opportunities where I can apply my skills, learn from real-world projects, and contribute to meaningful software solutions. I am also open to beginner-friendly open-source contributions and collaborative projects.

Experience

Mirai School of Technology
Undergraduate Student (AI/ML) – B.Tech CSE
August 2025 - Present (1 year 3 months)
Ghaziabad, Uttar Pradesh, India
